

PROCEEDINGS OF THE COMMISSIONER AND DIRECTOR OF SCHOOL EDUCATION,
ANDHRA PRADESH, HYDERABAD.

Rc.No.912/B1-1/2012

Dated: 18.04.2013.

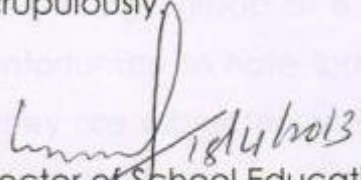

Sub:-School Education – Educational Activities during the 1st Week of
June, 2013 – Instructions – Issued – Reg.

It is brought to the notice of the Commissioner & Director of School Education that the reason for drastic fall of enrollment in Government schools is that the private schools are starting enrollment from June 1st onwards, while Government schools open from June 12th. By the time the Government schools are opened, most of the children are taking admission in private schools. This matter has been examined in detail. It is hereby requested all the Dist. Educational Officers to instruct teachers to do canvassing for admitting into Government schools from June 1st onwards.

As per the provisions of RTE Act, every child in the age group of 6 – 14 years has to be admitted into the school. But, it is unfortunate to note that still lakhs of children are not admitted into school and they are subjected to child labour and such harassment. All the teachers should take this issue very seriously and ensure that all out of school children in his or her areas are immediately admitted into the school. Hence, all the admissions in the schools can commence from June 1st onwards, though the regular school open from June 12th. The teachers can do pre-school activities like mobilizing the parents and children. He/she should keep the school ready in all aspects for next academic year. The school can be kept in an attractive condition by getting the white-washing etc., done utilizing the funds available with schools, so that children will feel very happy, when they actually start going to the school on 12th June. All

the civil works like construction of additional Class rooms, toilets etc., should be completed before the opening of schools. It is a well known fact that lot of preparatory activities like preparing lesson plans, TLM material etc., should be taken up before the Schools reopen. There is also a need to concentrate on transition of children to next higher class. It is observed that if 100 children joined the school in 1st class, only 70 – 80 children are studying upto VIII class, which should not be the situation. Similarly, teachers should conduct parents meeting and emphasize the importance of going to the next higher classes. The teachers should also collect all the 5 plus children data from Anganwadi workers and also those available in the village and conduct parents meet and explain how educating their children in Government school is useful. All the teachers are requested to work in a competitive manner with private schools and ensure that Government schools are widely accepted by the parents and enrollment in Government Schools improves.

I request you to follow the above instructions scrupulously.

Commissioner & Director of School Education.
